New books for your consideration:

The Las Meninas Suite:

Reflections in Poetry on a Painting, Two Painters and a Dog

Authored by Seán Gaffney

Las Meninas talks back : Gaffney invites the reader to go with him inside this enigmatic and mysterious painting as his "Reflections" record the murmurs and whisperings of each of the protagonists. This is a unique way of experiencing an artwork from inside out. It might just beg a visit to Madrid to see Las Meninas for yourself.

This book was created, designed and produced by Gestalt therapist and poet Seán Gaffney:

The Nine Reflections

***Borderline, Narcissistic, and Schizoid Adaptations:
The Pursuit of Love, Admiration, and Safety***
By Elinor Greenberg

In this book, Elinor Greenberg demystifies the diagnosis and treatment of personality disorders. She offers clear and practical advice on how to differentiate and treat clients who have Borderline, Narcissistic, or Schizoid characteristics.

The book begins with an overview of the topic of personality disorders, reframes these disorders as adaptations, and then explains the treatment interventions that work best for each type of adaptation. Later chapters describe how to do specific interventions that deal with commonly encountered treatment issues.

Each type of intervention is explained in detail, ample clinical examples are given, as is how and when to utilize the method in the client's treatment. Both beginning therapists and experienced clinicians alike will find this book a useful resource that will expand their understanding and effectiveness with this often challenging group of clients.

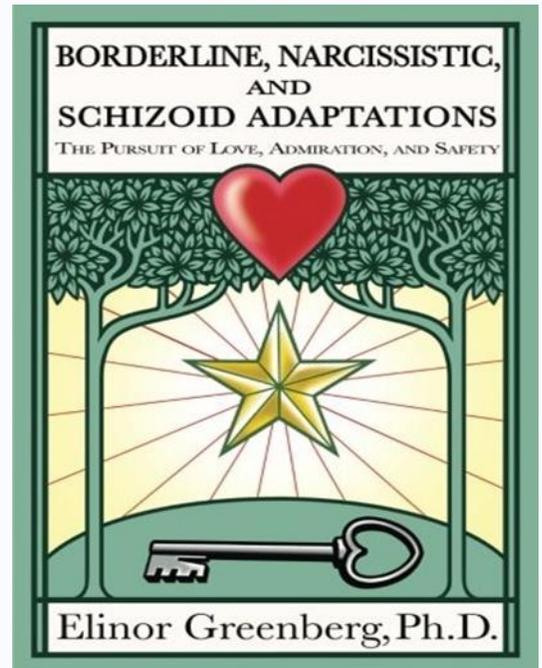

Elinor Greenberg, Ph.D., CGP, is a psychologist and an internationally renowned Gestalt therapy trainer who specializes in teaching the diagnosis and treatment of Borderline, Narcissistic, and Schizoid clients.

Our Experience of Being: A Gestalt Perspective

By Brian O'Neill

This book brings together the authors work in training gestalt therapists and experience as a gestalt therapist and trainer across 37 years into a profoundly simple dialogue with the reader about our awareness and experience of reality.

It offers numerous experiments used by the author in training gestalt therapists and currently with his clients in his practice in Australia.

This is a book particularly useful for students and the general public yet offers the depth of the work from the original text of Perls, Hefferline and Goodman.

Hoping you consider added all three of these titles to your book shelf!
